🌐 Environment 01 Ciriung RT02/01 No. 232. Cibinong District. Bogor Regency. West Java, Indonesia.

SOFT SKILL

- Mikrotik (Understand the basic network concept, Hotspot, Bandwidth, Vlan).
- Fiber Optic (Splicing)
- Electronics (Understand the basic concept of electronics).
- Server (Understand the debian operating system, wordpress, basic html programming, and css.
- Teamwork.

ABOUTE ME

I studied many things in computer network engineering at school and I also studied autodidactically at home to deepen my vocational knowledge. I am interested in computer network engineering because I want to understand and manage technology.

EXPERIENCE

- Follow the learning of the Debian operating system until installing WordPress on localhost.
- Taking Fiber Optic training from Telkom.

EDUCATION

2020 - 2023
MTS AL-ASIYAH

2023 - SEKARANG
SMK PLUS PELITA NUSANTARA
